When the pandemic closed the pubs, the Bevy quickly reinvented itself, delivering emergency food to the most vulnerable in our community. So far, we have dished out more than 2000 Bevy Meals on Wheels.

The pub has also undergone a deep clean and is currently being repainted and refurbished. While pubs have now been given the nod to reopen on July 4th we are still waiting for the government details while trying to figure out how we can do this safely.

Many of our elderly customers are currently being shielded and we do not want to put them or the sheltered housing they live in at risk. We also understand the need for people to escape their four walls and seek a bit of company.

Popping to the pub will look a whole lot different and we are working on an online booking system and hope to open the garden a few days a week for food and drink as soon as practical.

We will keep you posted.

Cheers

The Bevy team
